cued articulation pdf - Cued  
Speech is a visual system of  
communication used with and  
among deaf or hard-of-hearing  
people. It is a phonemic-based  
system which makes traditionally  
spoken languages accessible by  
using a small number of  
handshapes, known as cues  
(representing consonants), in  
different locations near the mouth  
(representing vowels), as a  
supplement to ...

... - Overview. In the scientific  
method, an experiment is an  
empirical procedure that  
arbitrates competing models or  
hypotheses. Researchers also use  
experimentation to test existing  
theories or new hypotheses to  
support or disprove them. Sun, 17
