agencies; and (6) reducing the  
potential for use of lethal means.  
Patients are instructed first to  
recognize when they are in crisis  
(Step 1) and then to follow Steps  
2 through 5 as outlined in the  
plan. If following the instructions  
outlined in Step 2 fails to  
decrease the level of suicide risk,  
then the next step is followed, and  
so forth. Sat, 16 Jun 2018

Risk Management In Mental  
Health Services. 1 FOREWORD  
Safety is central to the provision  
of quality mental health services.  
However adverse events do  
occur, sometimes with tragic  
personal consequences.  
Protecting patients and others  
from harm is a key priority and  
risk management is an essential  
component of providing such  
protection. Developments in  
recent years have served to  
support a more ... Mon, 11 Jun
